When do I need to **review my benefits**?

**New Employee**
New hires have a lot to do. Benefits enrollment should be high on the list. Review your options, elect benefits and click here to enroll.

**Open Enrollment**
Open Enrollment occurs during the beginning of November. For current employees, this is the time to review current benefits, and add or make changes to them. This is also a good time to review any changes that DePaul has made to its benefits.

**Family/Life Changes**
Changes happen in life. Marriage, birth, adoption, divorce, or death of a family member. Changes in your family status are important times to review and possibly change benefits.

**Time Away & Leave of Absence**
There are a variety of reasons that DePaul employees may need to take a leave of absence or spend time away from work. Learn more about Leave of Absence or Time Away.

**Leaving DePaul**
Leaving DePaul is another important time to review, update and change your benefit options.
