Mental Health / Substance Abuse Treatment	Paid the same as any other condition	Paid the same as any other condition	Not Covered

*If the cost of the prescription is less than the minimum, the participant will pay only the cost of the prescription.

Footnotes

1. Unless otherwise noted, all services are subject to annual deductibles.
2. Not subject to annual deductible.
3. Follow-up doctor visits and tests performed as a result of a potential health problem discovered during preventive care screenings are covered as normal medical expenses rather than as preventive care. For example, a colonoscopy performed as a result of a potential problem discovered during a routine physical would not be covered as a preventive care benefit; rather, it would be covered as a normal medical procedure.
4. Under the prescription drug program, the member pays the applicable coinsurance and/or co-pay plus the difference between the cost of the brand and generic drug if the brand drug is selected. If physician indicates dispense as written, member does not pay the difference in cost.
5. Excludes Vision co-pay
