

# Duo Two Factor Authentication: Using DUO to authenticate in Campus Connect

## Summary:

This guide will assist you in using DUO to authenticate from a previously configured landline or mobile device

## Overview:

1. Log into the Campus Connect Resource that you want to access.
2. Send a notification/receive a call to authenticate
3. Access requested resource

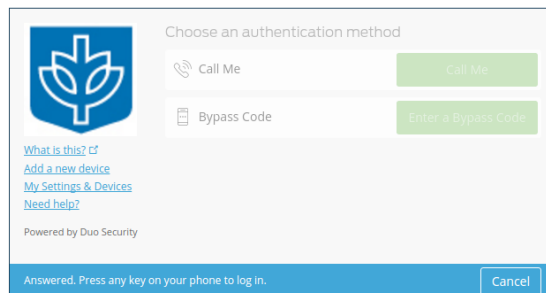

## Note:

Duo two-factor authentication is required in order to access certain sensitive information in Campus Connect.

---

## Instructions

If you set up landline authentication, click “Call Me”. Answer the phone call and press any key on your phone. The requested resource will load after you have been authenticated.

If you set up mobile push notification authentication, click “Send Me a Push.” You will get a notification on your mobile device. Tap confirm on your mobile device, and the requested resource will load.
